

STANDING ON THE SUN: HOW THE EXPLOSION OF CAPITALISM ABROAD WILL CHANGE BUSINESS EVERYWHERE

For half a century the US has sat at the center of the global economic system, and Western-style capitalism has dominated. Now, it's no secret that the center of gravity is shifting. The advanced economies that in 2000 consumed 75% of the world's output will, by 2050, consume just 32%. Meanwhile,...

Peek Inside the Book

capitalism itself is a system and that as the environment that hosts capitalism changes in particular, as the better part of global economic growth begins to occur outside the mature economies of the West the capitalist system will evolve. Reader's Opinions

It's how the focus now is no longer on developed countries, but rather on undeveloped countries, and because of this change of focus, capitalism will change, it will adapt to the new environment.
