Reader's Opinions

Trust No One was a fantastic read. This is one of the best romantic suspense books I read in 2012. Diana Layne delivers a story that keeps you on the edge of your seat. You root for the heroine through the book and you want her to have her happily ever after even if she does not end up with the hero. I look forward to more books in...

This is really a five-star book, but I didn't like the semi-sister character and thought our heroine should have been more leery of throwing in her lot with her. That issue aside, the book is well-written romantic suspense with good characters.
